WASHINGTON INVING.

The writings of the most honored of American authors are at last made accessible to all readers, and in such varied and beautiful forms as to delight the most fastidious taste, and at prices so low as to be an astonishment to book-buyers, and a consternation to book-sellers, of whom the "Literary Revolution" makes no account. As examples, we have "The Legend of Sleepy Hollow" for three cents, 'Wolfert's Roost" ten cents, "The Sketch fert's Roost" ten cents, "The Sketch Book" 20 cents -these in paper bind-The world renouncel "Henry's Specific" positively curve all cases of Nervous hebility and weekness of the generative organs. In a varied practice of over thirty years in treating mon's diseases and disabilities, Henry's Specific has met with unparalled success having sold during that time upward of forty thousand packages, and in no instance without success when "Specific" was used as directed. This "Specific" is pleasant to take and does not instructed by the success of the succes ing but large type; in next or elegant cloth or half Russia bindings, his "Choice Works" are published at prices varying from 30 to 45 cents, and his complete works (excepting "Life of Weshington") in the superb Caxton Edition, six volumes, over 5,000 pages, choice typography, elegant binding, for only \$4. Specimen pages or large descriptive catalogue are sent to any applicant on request, and orders over \$5 in amount are filled to be paid for after arrival and examination, on reasonable evidence of good faith being given. HARPER'S MAGAZINE.

Harper's Magazine for February is a strong number in both its artistic and literary features.

The opening paper of the Number by Joseph Hatton, is a description of the Upper Thames, accompanied by ten very beautiful and picturesque illustrations from drawings by E. A. Abbey and Alfred Parsons.

Miss Woolson concludes her very interesting article "At Mentone," which s profusely and beautifully illustrated. Colonel Higginson's "American His tory" series has passed beyond the Revolution period, and in this month's paper he traces the beginnings of our national life. The rti deals also with some interesting phases of social life in New York and Philadelphia during Washington's administration. On of the illhstrations is a fine full-page portrait of Alexander Hamilton, engraved by Butler.

"Glimpses of Emerson," by Mrs James T. Field's is full of new matter which will be of interest to every read er of the magazine in America and En-

The Editorial departments are well sustained, as usual, and full of enter-tainment and instruction.

THE long talked of defense of Old John Brown, by Senator Ingalis appears in the February number of the North American Review. Those who knew the Senator's style of dealing with an antagonist, predicted a very severe handling of the Rey. David Utter, whose article, denouncing John Brown as a murderer and a thief, he was to reply to. And they are not disappointed. Mr. Ingalls states his case strongly, as he always does, and not only entirely vindicates the char-acter of the old hero, but gives a very clear and vivid characterization of the spirit of the most thrilling epoch of the history of our State.

THEATRICAL AND CIRCUS LIFE" Is the name of a new book just issued by that enterprising firm the Sun Pubshing Co., of St. Louis. This interesting work will be welcomed by the thousands who nightly visit our places of amusement, but who are unacquainted with the mysteries of the 'Profession," and will be doubly welsmed by those who never visit such places, but whose curiosity has often been excited by the flaming posters placed in many conspicuous places. It is a grand book for agents. We call ttention to advertisement elsewhere.

IF there is one thing that the Democrats love better than anti-monopoly it is civil service reform. The deep atent they feel for this shown in the defeat of Mr. Pendleton in Ohio, and an another example may be found in the introduction in the House the other day by Mr. Haskell. of Kentucky, of a bill "to repeal th civil service set."

The night of August 29th last, Geo. Highfield, while intoxicated, was run over by the cars, and died the next lay from his injuries. His widow brought suit against the Marysville saloon-keepers, who sold him the liquor, and on the 5th inst., recovered a virdict of \$1,100 damages.

Ir has been whispered sub rosa that His Excellency, the Governor of this great Commonwealth, called the Congressional election on Saturday, in order that the Republicans might lose the vote of the Seventh Day Baptists. of which there is a goodly number in

BAL OF BESTUL D

How Watch Cases are Made.

It is a fact not generally known that the James Boar Gold Watch Cases really con-tain more pure gold than many "solid" gold cases The demand for these watch gold cases The demand for these watch cases has led to the manufacture of a very poor grade of solid gold watch cases low in quality, and deficient in quantity. These cases are made from 4‡ to 10 karsts, and a 5 or 6 karst case is often sold for 12. and a 5 or 6 karat case is often sold for 12 or 14 karats. It is nor economy to buy a watch case so poor in quality that it will soon lose its color, or one so soft that it will lose its shape and fail to shut tight, thus letting in dust and damaging the works, or one so thin that a slight blow will break the crystal, and perhaps the movement. It IS economy to buy a Jones Bost Gold Watch Case, in which none of these things ever occur. This watch case is not an experiment—it has been made nearly thirty years.

Harlartos, Pa., Oct 34, 188. ment—it has been made nearly thirty year.

I sold two James Bons' Gold Watch Cause thirty years ago, when they first man out, and they are igned condition yet. One of them is carried by carpening for J. W. Drake, of Hashson, and on shows the wear in one or two plasms, the other bir. Rowman, of Cunningham, Fa.; and I can perform the conditions of the co
